Clients, Partners, Students

Dr. Sven Peyer

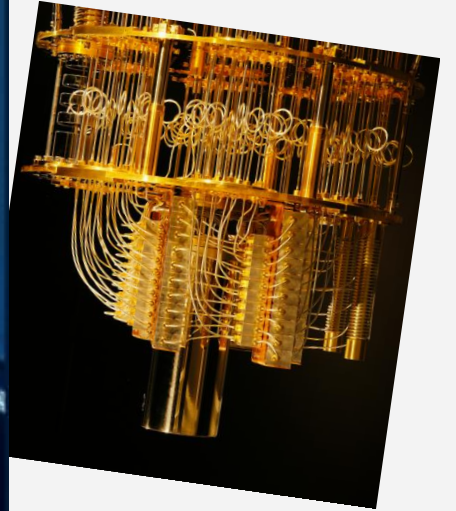

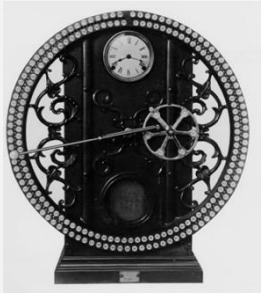

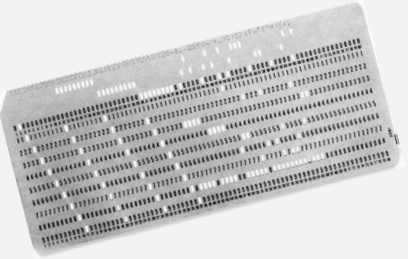

Dr. Tristan Müller

IBM has 26 locations in Germany, Austria and Switzerland. The majority of these are sales offices. There are also data centers as well as a research and a development center.

115 Years of Innovation

175 countries, 280,000 IBMers, \$57 billion in revenue,
#1 in US patents for +25 years- 9000+ patents in 2022
50% of the things we do today were created in the last 5 years
Open source technology since the early 90s
Focus on Business2Business

IBM stands for innovative technologies, industry expertise, trust and security.

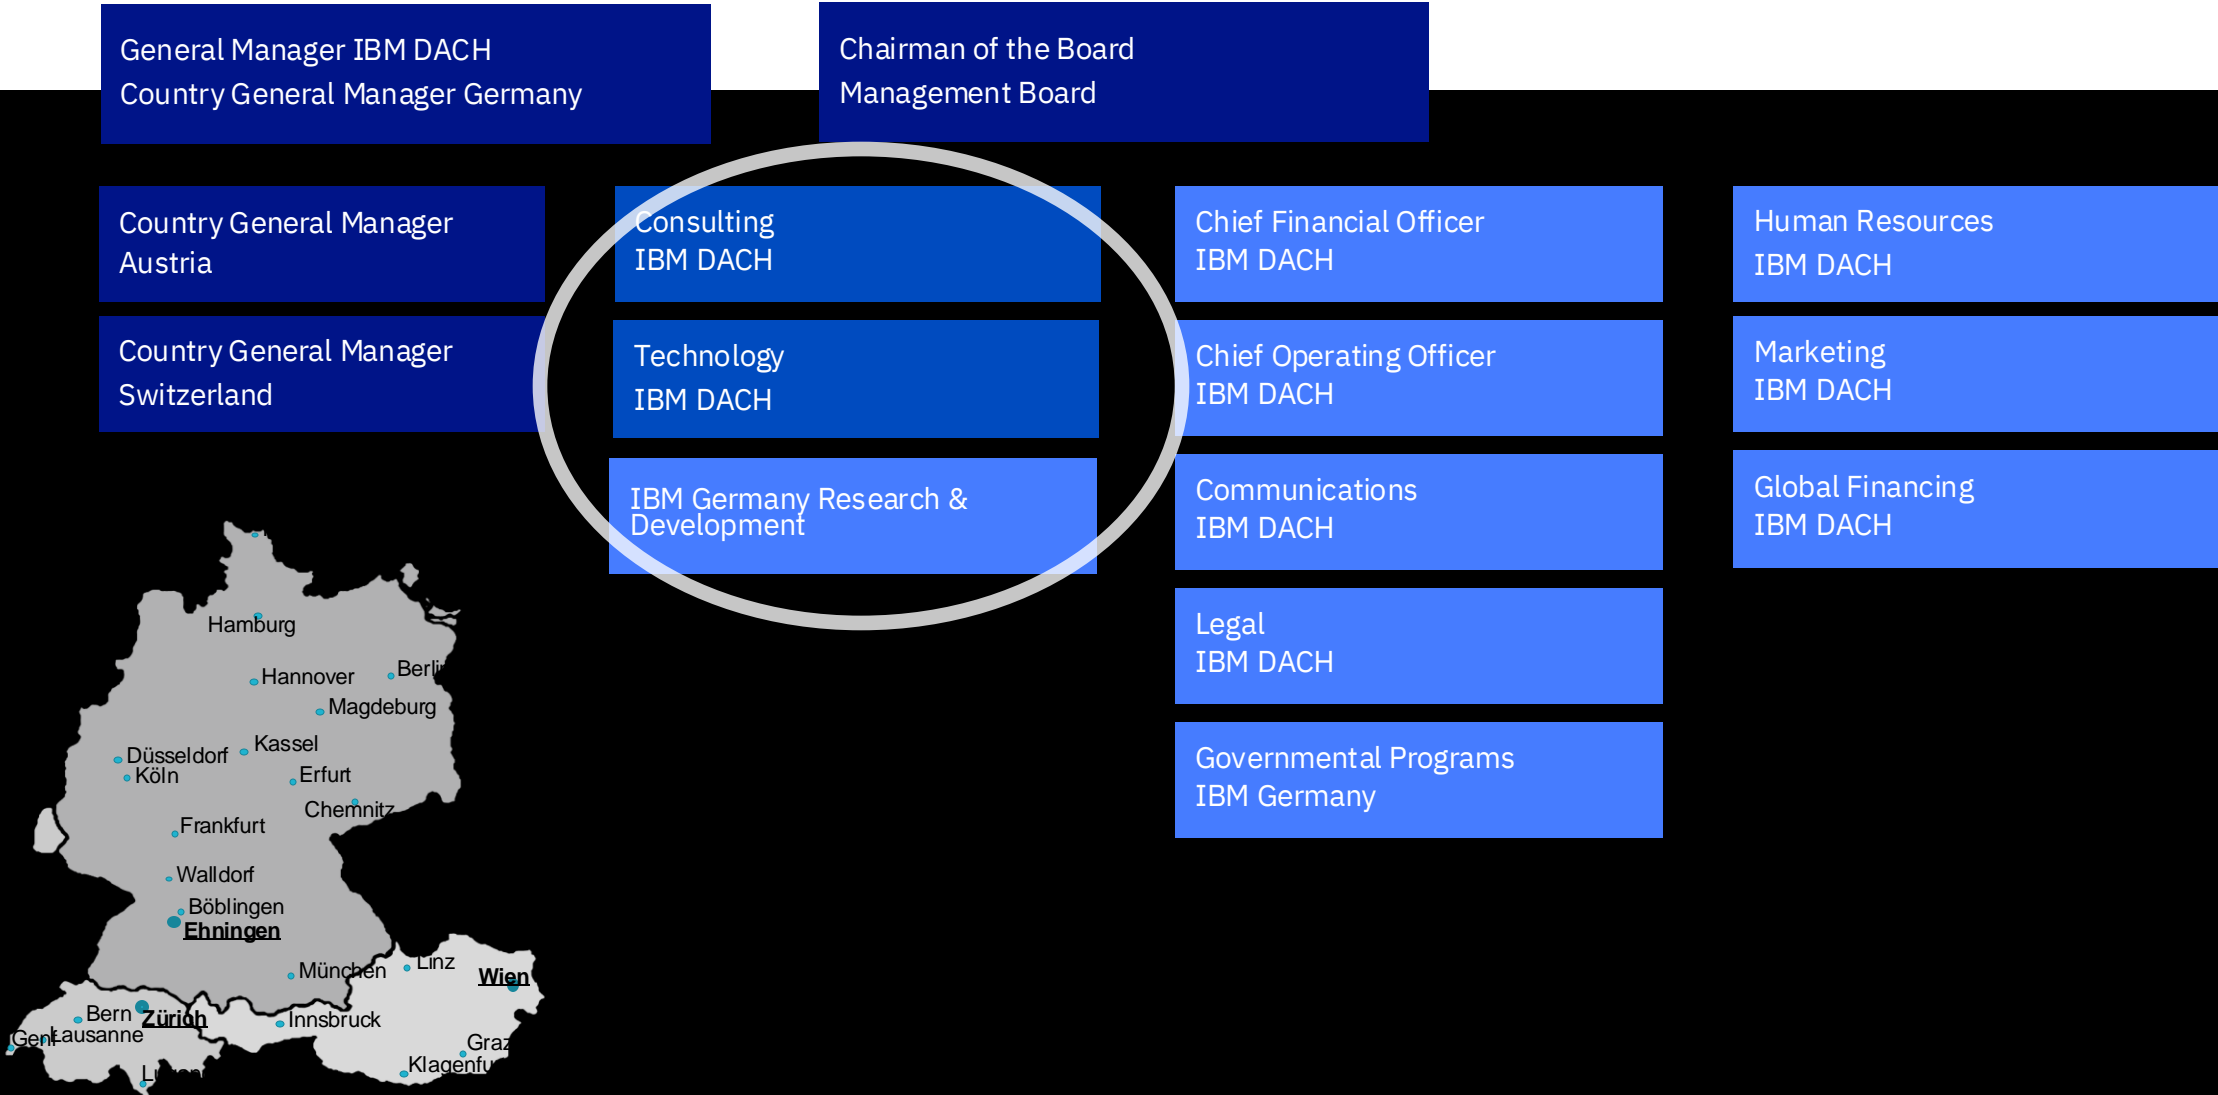

The whole world relies on Cloud: **The IBM Cloud** offers fast access to shared data and resources.

IBM Watson, the enterprise AI platform from IBM, helps companies think smarter, act faster and achieve more.

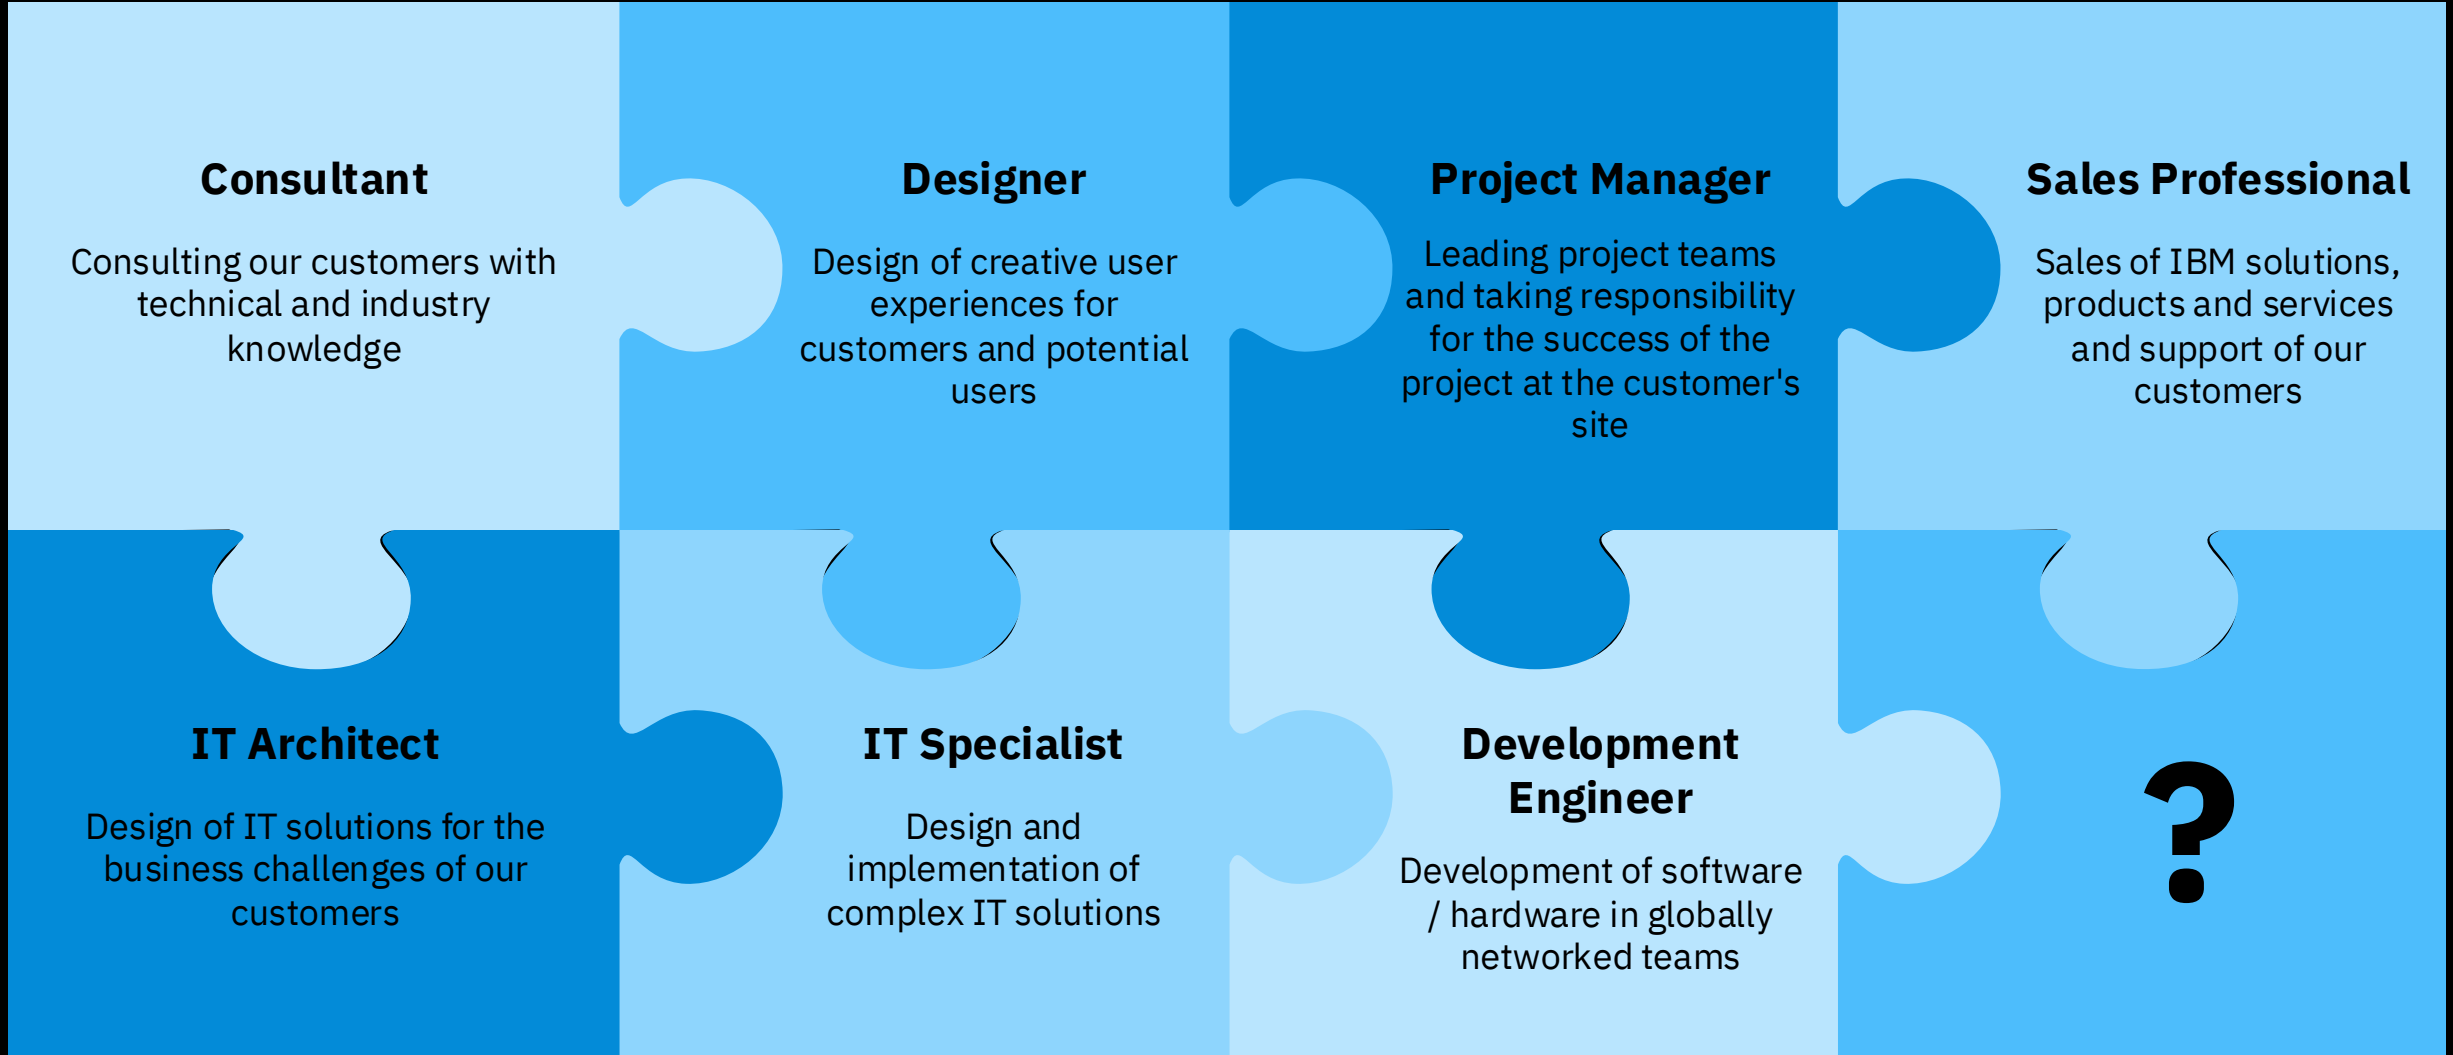

IBM Security provides the necessary security to ensure that business processes run reliably and without disruption.

Solving the unsolvable: **Quantum computing** can help achieve a scientific breakthrough for problems of a certain size and complexity.
